

# La Lune

**Sarah Brightman**

Light in the night with the stars and the moon,  
And the sun's turned off.  
When the moon is high,  
And the sun's turned off.["That's one small step for man,  
one giant leap for mankind"]Sous les nuages de la nuit  
je marche vers la clairire.  
D'un clat argent je la vois,  
la lune.Elle porte les voiles de l'ternit,  
son aurole embrasse les toiles, ma lune.
