Little White Pills

Tif Ginn

Since the moment you slipped away
I tried it all, I gave it time
and I stumble through the days
now nothin gets me high
I look at your picture every day
I want to touch your face
I want to hear you say
baby baby its okay
but you don't
and you won't
and I can't get out of this
funk funk funk
Little white pills and champagne
whiskey and cocaine
just make me insane
now nothing gets me high
Drive out to lover lane
and it all seems the same
I reach out to grab your hand
and I remember its the candy man and I yell stop
let me out I can walk
he says just relax
and take a hit off of this, waa

Little white pills and champagne
whiskey and cocaine
just make me insane
now nothing gets me high
I used to be your special lady
you held me above the rest
ooo you could really send me
baby you were the best
but its a joke
now its all gone up in smoke
and I only have myself to blame
I will never be the same
Little white pills and champagne
whiskey and cocaine
just make me insane

now nothing gets me high
Little white pills
whiskey
Little white pills
oh those little white pills
now nothing gets me
nothing gets me high
