Running Hot

Saxon

Catch me if you can and tame the beast
Should I leave you burning in the heat
Kick the throttle down, I'm on fire
It turns me on to feel the engine's beatTake it to the highway on the open road
I want to feel your power
Screaming into overload
She's running hot, she's hotComing out of nowhere, moving fast
I gotta keep the feeling
Make it last, met me feel your body
I'll explode, together we will run to overloadTake it to the highway on the open road
I want to feel your power
Screaming into overload
She's running hot, she's hot
