

Running Hot

Saxon

Catch me if you can and tame the beast
Should I leave you burning in the heat
Kick the throttle down, I'm on fire
It turns me on to feel the engine's beat Take it to the highway on the open road
I want to feel your power
Screaming into overload
She's running hot, she's hot Coming out of nowhere, moving fast
I gotta keep the feeling
Make it last, met me feel your body
I'll explode, together we will run to overload Take it to the highway on the open road
I want to feel your power
Screaming into overload
She's running hot, she's hot
