

# Saga

## Sepultura

No surrender  
Still unhurt, we fly Intense fiercing war, insult no tolerance  
Against one rule, to fit 'em all  
To blur my eyes, already blind  
To keep my hands from moving free The pulse of what we live, the hate we build inside  
Create my shield to fight them all  
They see the things they can not be  
To understand they can't be free No surrender  
Still unhurt, we fly We learned the way, how to be real  
What we say we live  
It keeps me sane to embrace our will  
And go against inhumanity My saga, my saga  
Battle in the fields of fear  
Attack defend, it's never over  
My saga, my saga, no regrets It doesn't matter where you are  
Do what you can with what you have  
It doesn't matter where you are  
Do what you can with what you have No surrender  
Still unhurt, we fly We learned the way, how to be real  
What we say we live  
It keeps me sane to embrace our will  
And go against inhumanity My saga, my saga  
Battle in the fields of fear  
Attack defend, it's never over  
My saga, my saga, no, no, no, no regrets
