

Holy Man

[Lita Ford](#)

Lead me into temptation
Save me with your healing hands
Show me the fires of creation
Baby, be my Holy manFlames in the garden of Eden
Heaven in pieces at my feet
I faced the raging ruinOf a million sleepless nights
I need to rest my weary head
On your resurrection bedStorms across the horizon
Whirlwind tuggin' at my sleeve
Just when my heart was turningTo an icy shade of blue
You came into the night, held me so close
How the hell ya found me God only knowsLead me into temptation
Save me with your healing hands
Show me the fires of creation
Baby, be my holy manLies in the valley of evil
Like shadows fallin' 'cross my eyes
When there's no sanctuaryYou came and turned the storms away
You made the darkest night in my life
Into Judgement DayLead me into temptation
Save me with your healing hands
Show me the fires of creation
Baby, be my holy manI see forever in your eyes
For your love
I would make any sacrifice, yeahLead me into temptation
Save me with your healing hands
Show me the fires of creation
Baby, be my holy manLead me into temptation
Save me with your healing hands
Show me the fires of creation
Baby, be my holy manLead me into temptation
Save me with your healing hands
Show me the fires of creation
Baby, be my holy manLead me into temptation
Save me with your healing hands
Show me the fires of creation
Baby, be my holy man
Baby, be my holy man
