

# Make This Go On Forever

## Snow Patrol

Please, don't let this turn into something it's not  
I can only give you everything, I've got  
I can't be as sorry, as you think I should  
But I still love you more than anyone else could  
All that I keep thinking throughout this whole flight  
Is it could take my whole damn life to make this right  
This splintered mast I'm holding on won't save me long  
Because I know fine well that what I did was wrong  
The last girl and the last reason to make this last for as long  
as I could  
The first kiss and the first time, that I felt connected to anything  
The weight of water, the way you told me to look past everything  
I have ever learned  
The final word in the final sentence you ever uttered to me was love  
We have got through so much worse than  
this before  
What's so different this time that you can't ignore  
You say it is much more than just my last mistake  
And we should spend some time apart for both our sakes  
The last girl and the last reason to make this last for as  
long as I could  
Th first kiss and the first time, that I felt connected to anything  
The weight of water, the way you told me to look past everything  
I have ever learned  
The final word in the final sentence you ever uttered to me was love  
The last girl and the last reason to make this  
last for as long as I could  
The first kiss and the first time, that I felt connected to anything  
The weight of water, the way you told me to look past everything  
I have ever learned  
The final word in the final sentence you ever uttered to me was love  
And I don't know where to look  
My words just break and melt  
Please, just save me from this darkness  
Please, just save me from this darkness  
And I don't know where to look  
My words just break and melt  
Please, just save me from this darkness  
Please, just save me from this darkness
