

# Before You Leave

Kurt Nilsen

## Verse 1

Stay, stay a little longer, do you have to go away  
Stay, stay for tomorrow, then I will know, if I'd rather be alone  
Take, take a moment of time and turn it back, so we can start from scratch  
Suppose, I leave all I got, would it make it easier on your heart

Well I'll take what I can before you leave

That is just a smile

I'll see you more that's why I can watch you breathe

That is all right

Come on and show me that silky skin

Your o so fine

I know we could turn it right

I know we could turn it right

So right

## Verse 2

Throw, throw me a lifeline

We had a team

Would you save me if it all goes wrong

Grab, grab me cause I'm yours

Forever that's for sure

That's what I want you to tell me

Well I'll take what I can before you leave

That is just a smile

I'll see you more that's why I can watch you breathe

That is all right

Come on and show me that silky skin

Your o so fine

I know we could turn it right

I know we could turn it right

It's all an illusion

Easier said than done

Let's make a conclusion

This is worth it if we try I'll take what I can before you leave

That is just a smile

I'll see you more that's why I can watch you breathe

That is all right

Come on and show me that silky skin

Your o so fine

I know we could turn it right

Ahh ahh ahh

Ahh ahh ahh

Ahh ahh ahh

Ahh ahh ahh

Ahh ahh ahh

Ahh ahh ahhhhhhhhhh Come on and show me that silky skin

Your o so fine

I know we could turn it right

I know we could turn it right
