

# One Eye Shut (Steve Angello &

Robbie Rivera

Can you feel me?  
They're watching me stare  
Can you hear me?  
With that noise filling everywhere Work hard, play harder  
Think fast, move faster  
To make everything  
To make everything  
To make everything seem alright You'll keep one eye shut  
To make everything  
To make everything  
To make everything seem alright I'll keep one eye shut  
To make everything  
To make everything  
To make everything seem alright Can you sense me?  
My head's spinning round  
Can you reach me?  
But I keep my feet on the ground Work hard, play harder  
Think fast, move faster  
To make everything  
To make everything  
To make everything seem alright You must keep one eye shut  
To make everything  
To make everything  
To make everything seem alright You must keep one eye shut  
To make everything  
To make everything  
To make everything seem alright You must keep one eye shut  
You must keep one eye shut  
You must keep one eye shut One eye shut  
One eye shut  
One eye shut
