

Corrosion

DJ Maissouille

[Monoxide Child]I'm all in the dark now

So dance with dead I can't do shit

I'm fallin' apart now

Been rottin' away in the grave since '96

I hope I'm not forgotten

Even though my body's gone

And when I'm on the bottom

Bury me with a Lotus cross

Don't nobody love me

Don't noone know the way that I feel

I'm feeling so ugly

And so I keep my casket sealed

My sprit lingers like a ghost

On the so called Earth

I'm underground, I'm a monster

Who lives in the dirt

[Shaggy 2 Dope]Understand, certain motherfuckers jump to life

When certain concotions dumped down their windpipe

In the stomach, through the blood

And up to the dome piece

Pass out, wake up

Snappin' all necks within arms reach

I need another fixin', Southwest Delray

Green glowin' toxic bourbon

Lord have mer-say-a (Mercy)

Having to be an addict

In my nugget but I love it

And I can't seem to get enough of this shit

So fuck it

[Chorus]Rotting souls

Let them die

Corrosion

Rotting souls

Let them die

And we don't need life

Rotting souls

Let them die

Corrosion

Rotting souls
Let them die
And we don't need life
[Anybody Killa]Corrosion keeps creepin'
Don't let it wash you away
Scratching on the surface
Hopin' that them scars will fade
It's like I'm being eaten from the inside
And don't know why
I keep fogettin' what I'm doin'
Am I still alive?
Will I breath again?
And if I do
I'll take a breath and hold it in
Grab on tight to what I have
The chase away this life of sin
