Airplanes

David Usher

Sold myself out for a pocket lies
Into the sea you threw us into the sea
Took yourself out on a holiday
Pay the way I always pay the way
Everybody wants it 9 to 5
Typical lies I said more typical lies
Only wanted to be by your side
You?re making it hard to survive
And these airplanes
Flying in the fast lane
And the push on through
Yeah they push on through
It?s killing me
The weight of your gravity
And we push on through
Yeah we push on through
Clich
