

The Girl Who Had Everything

Television Personalities

She's had lovers
She's had diamond rings
She's been driven in French sportscars
She's been everywhere there is to be seen
And they call her
The girl who had everything
Her daddy bought her a pony
And daddy was so proud
When she won the school gymkhana
She jumped two clear rounds
And they call her
The girl who had everything
She's got her own black mini
A white fur coat from Black Glamour
What becomes a legend most
She's the perfect host
And they call her
The girl who had everything
She's been to wonderful parties
Starred in underground films
She started taking drugs but just for fun
And they call her
The girl who had everything
She only has to sign her name for anything she sees
In all the top shops
And they call her
The girl who had everything
You often see her backstage
Drinking champagne, tea at Ritz
And a birthday party at Ritz
And they call her
The girl who had everything
She had everything she wanted
Everything but not enough
She never had love
And she threw it away
In a drug filled haze
One sad day
And they called her
The girl who had everything
