

# Rock Out

## New Feudalism

Hear the music coming, loud as you can stand  
You'll never be the same again  
Let the beat into you, let it turn you 'round  
Let it be your best friend  
You are the future, it's your time  
You and you and you  
Stay together, this is yours and mine  
What we're gonna do  
Rock out, rock out, rock out  
Let it crush your fear  
Rock out, rock out, rock out  
And you can get it here  
Here comes the bass, thunder in the guts  
Rock 'til you can't stand  
Now the guitar speaks, gonna drive you nuts  
Power under your hand

You are the people, now you shine  
You and you and you  
Stay together, let me speak the line  
What you gonna do?  
Rock out, rock out, rock out  
Let it crush your fear  
Rock out, rock out, rock out  
You can get it here  
Rock out, rock out with your cock out  
Impress your lady friends  
Rock out, rock out, rock out  
'Til your life is at an end  
No, no, no
