Overnight

Hudson Mohawke

Overnight, overnight, overnight, overnight, overnight
I met you on the Sunday night by that Monday morning
Overnight, although I wondered
Overnight, what's wrong with me
Overnight, love walked right in and shook me like a tree
Oh, I sat down when I got home and gave my heart a warnin'
Overnight, I dreamed about you
Overnight, while count the sheep
Overnight, I felt for you so hard I couldn't sleep
All night long I wished you were my own
And when I came to I was huggin' you like a hound dog hugs a bone
All night long my heart was standing still
And when I got up I pitched myself to see if this was real
Then you came by and told me dear the same sweet Monday morning
Overnight, you dreamed about me
Overnight, you loved me too
Overnight, we found the dream that really did come true
All night long I wished you were my own
When I came to I was huggin' you like a hound dog hugs a bone
All night long my heart was standing still
And when I got up I pitched myself to see if this was real
Then you came by and told me dear the same sweet Monday morning
Overnight, you dreamed about me
Overnight, you loved me too
Overnight, we found the dream that really did come true
Really did come true, that really did come true
Overnight, overnight, overnight, overnight, overnight
