Chemistry Tonight

Frida

(Peter Glenister, Simon Climie, Kirsty MacColl)
No rain but I felt the thunder
You came and my ship went under
With a white light shattering the night
As you smiled like you do
I could take evasive action
But I need the satisfaction
And I know, oh
I could learn a lot
>From someone like you
Who knows what will happen
I'll keep my fingers crossed and
Hope for some reaction
Here it goes, it's chemistry tonight
My eyes are open
All the electricity seems right
I can feel a change in me
It's chemistry tonight
I know that I'm onto something special
Writing on the wall in neonlight
Telling me it's got to be
It's chemistry tonight
You turn and you look
Right through me
You know what you're
Doing to me
Very slow, oh I just can't erase
This smile from my face
I'm sure we could be terrific
So pure that it's scientific
'Cos it's true, ooh everything
We do falls right into place
Can't wait for the darkness
I'm lying in the bath
I turn on my radio
I know, there's chemistry tonight
My eyes are open
All the electricity seems right
I can feel a change in me

It's chemistry tonight
I know that I'm onto something special
Writing on the wall in neonlight
Telling me it's got to be
It's chemistry tonight
One kiss and you start a fire
One sip from your loving cup
Can take me high
My body's burning up
When you do like you do
I feel silent somehow
Feel you closer now
We may discover something
Maybe, it's chemistry tonight
My eyes are open
All the electricity seems right
I can feel a change in me
It's chemistry tonight (chemistry tonight)
I know that I'm onto something special (chemistry tonight)
Writing on the wall in neonlight (chemistry tonight)
Telling me it's got to be
It's chemistry tonight (chemistry tonight)
My eyes are open
All the electricity seems right
I can feel a change in me
It's chemistry tonight (chemistry tonight)
I know that I'm onto something special (chemistry tonight)
Writing on the wall in neonlight (chemistry tonight)
Telling me it's got to be
It's chemistry tonight (chemistry tonight)Rafael Nogueira - abba@certto.com.br
