

Captured By the Moment

Steve Perry

Where did he go
The man who said, "I have a dream"
Where have they gone
The four who sang to "Let it be" Jackie's alone
She lost him one November day
L.A. Motel
One sad mistake took Sam away Oh, remember then
Remember when Captured by the moment
In the magic of a yesterday
Captured by the moment
And I hope it never fades away Sweet Janis cried
"Lord, won't you buy a Benz for me"
Jimmy was right
Castles made of sand slip to the sea Oh, remember then
Remember when Captured by the moment
In the magic of a yesterday
Captured by the moment
And I hope it never fades away Captured by the moment
Oh, in the magic of a yesterday Otis replied
A little tenderness we gotta try
One open door
He tried to set the night on fire Captured by the moment
In the magic of a yesterday
Captured by the moment
And I hope it never fades away Captured by the moment
Oh, in the magic of a yesterday
Oh, whoa whoa
