

# 1-Flight

## Andre Nickatina

I'm always looking for a winna  
Your rolling with a world wide sinner  
Jump out the car and let the perm hit her  
The city is a drug  
My Rolls Royce is thumping like the club  
So I ain't gonna front  
Here have a blunt  
Sittin' outa here deli square having lunch  
The Hennessy we drinking got us both getting drunk  
And then I start to talk about my reigns  
And how moneys made  
Baby even when it rains, its not a game.  
I'm bright like the night next door light  
If it's the first class flight then it must be right, yo  
And I don't have to time to be no sponsor  
Man and if we do it right then we might have time to hit up all the concerts  
Might hit the mall way harder then a  
boxer  
Do something nice  
Then he asking me to knock her  
I could never jock her  
Gotta put the game on display  
She bit her lip and didn't walk away  
My name is Dre!  
Verse #2  
Baby make that flight  
For real, We could do it all tonight  
Now give me one chance to make it right  
Cause' I could get the clients  
And you can get the science  
The way I'm talking baby, can make somebody else buy it  
They really can't deny it  
The city is the maker for the money  
Blaze no, dirty talk to me  
My number is 555-5555  
It's kind of hard to memorize  
I'm so live  
I do a U-Turn all on Vaness  
Baby thought I wouldn't do it cause' the car is so fresh  
I jump out the car  
Own her like a shooting start  
And even though I wearing Jordan man I still at the par  
Man its the city life with the pretty life  
When people treat their car and they money like a pretty wife  
You take her round town maybe take her  
downtown  
Anywhere the moneys quick and it never slows down.
