Don't Look Away

The Helio Sequence

Don't look away, I don't think I could stand it
So don't look away 'cause my heart couldn't handle it
There's a fire in your eyes and it's melting the ice
In my heart, so don't blink an eyeThey're so beautiful open just let them cry
Or the spell will be broken, the moments in your gaze
Have been turning to days, in my heart we've never met
And yet we're in love, never forget one look is enoughJust as long as you don't look away
We can never be lovers, there's one chance to take
There won't be any others, I'll be spending my life
With your eyes like a knife in my heart
