

# Don't Look Away

## The Helio Sequence

Don't look away, I don't think I could stand it  
So don't look away 'cause my heart couldn't handle it  
There's a fire in your eyes and it's melting the ice  
In my heart, so don't blink an eyeThey're so beautiful open just let them cry  
Or the spell will be broken, the moments in your gaze  
Have been turning to days, in my heart we've never met  
And yet we're in love, never forget one look is enoughJust as long as you don't look away  
We can never be lovers, there's one chance to take  
There won't be any others, I'll be spending my life  
With your eyes like a knife in my heart
