

Man In the Moon

Voice of the Beehive

(words t.bryn, m brooke/music t.bryn)the man in the moon is my man
he never say nothing so i know he understands
he's the brother i never had- the husband i'd never
want he's everything to everone - he's famous
he's the man in the moon
he's the man in the moonthe man in the moon is my man
the man in the moon is my love caravan
he'll never break my heart i know he's here to stay
tell all the other boys to go away
I'll take the man in the moon
I'll take the man in the moonhe's always dressed properly
he's always where i can see him
he's always there when i need himthe man in the moon's got the stylin' flat
his dinner guest include the sun and saturn
the cow jumps over - he knows all the astronauts
i would be a space case if it were not for the man in
the moon.
the man in the moonhe's always dressed properly
he's always where i can see him
he's always there when i need himthe man in the moon's my cosmic high
the man in the moon's a pearl of a guy
i trust him on venus
he's not the cheatin' type
he don't talk so we don't fighti'll take the man in the moon.
