Miss April

Chantal Kreviazuk

Welcome back Miss April
Hope you feel all right
You've had a long vacation
From real lifeWelcome back Miss April
Gravity ain't kind
You lost your playboy body
At Hollywood and vineYou sure spent lots of money
Now you wonder why
Your 15 minutes flew byWell it must've been hard
And it must've been good
And it must've been nice to be understoodIt must've been fun
'Cause you must have been loved
You must've been beautifulOpen up the paper
Hope that you will find
The young girl from Virginia
You're back in your primeYou should have known that someday
Things were gonna change
And they would forget your nameOh well it must've been hard
And it must've been good
And it must've been nice to be understoodIt must've been fun
'Cause you must have been loved
You must've been beautiful
You're beautiful, you're beautiful, you're beautifulWelcome back Miss April
Hope you feel all right
You've had a long vacation
From real lifeOh well it must've been hard
And it must've been good
And it must've been nice to be understoodIt must've been fun
'Cause you must have been loved
You must've been beautifulOh well it must've been hard
And it must've been good
And it must've been nice to be understoodIt must've been fun
'Cause you must have been loved
You must've been beautiful
Beautiful, beautiful
