

Begin Again

Knife Party

Is there somewhere else to be
Is there another way to feelÂ the lost pieces
All over,Â getting closerHold up your hands and begin again
Hold up your hands when you reach the end
We live and we work and we die for it
We know our path and we fight for itHold up your hands and begin again
Hold up your hands when you reach the end
We live and we work and we die for it
We know our path and collide for itCan we begin again
When you reach the end
Can we begin again
When you reach the endCan we begin again
When you reach the end
Can we begin again
When you reach the end
