Letter From a Friend

Novice

Sunlight breaks over moonlit skies
This day comes too life
This cold air that I breathe is fatal
And theres no comfort here
Your the same but I have changed
But you wait for me still
I got your letter it said you'd never leave
And you'd forgive meAnd I will sing for you forever
For the rest of my days
And I will scream for you forever
And I will sing for you forever
For the rest of my days
And will you wait for me to get thereForget all those times that I was wrong
I know I let you down everyday (please forgive me)
But still your there waiting
For me to come home to you
To be with you
No matter how far I run away
Your wings protect meAnd I will sing for you forever
For the rest of my days
And I will scream for you forever
And I will sing for you forever
For the rest of my days
And will you wait for me to get thereInside, my heart you are beating / You're beating
(I know we'll see a better day
If I stay with you forever
Stay with you forever)
Inside, my heart you are speaking / You're speaking to me tonight
(I know that theres another way
Will you wait for me to get there
Wait for me to get there)And I will sing for you forever
For the rest of my days
And I will scream for you forever
And I will sing for you forever
For the rest of my days
And will you wait for me to get thereAnd I will sing for you forever
For the rest of my days
And I will scream for you forever
And I will sing for you forever

For the rest of my days
And will you wait for me to get thereI will sing, I will scream
Will you wait for me to get there
(And I will sing for you forever
For the rest of my days)
I will sing, I will scream
Will you wait for me to get there
