

# That Secret Place

[Patti Austin](#)

We ought to go away  
To that secret place  
Why don't we leave today  
To that secret place? We ought to go away  
To that secret place  
Why don't we leave today  
For that secret place? A paradise all [Incomprehensible]  
With the sand and the waves so blue  
A beautiful amber sky  
No one there but you and I We ought to go away  
To that secret place  
Why don't we leave today  
For that secret place? We ought to go away  
To that secret place  
Why don't we leave today  
For that secret place? We ought to go away  
To that secret place  
Why don't we leave today  
For that secret place? We ought to go away  
To that secret place  
Why don't we leave today  
For that secret place?  
For that secret place?
