

End of Innocence (Instrumental)

Kamelot

Tell me do you remember
The games and the laughter
Far from the choices we'd have to make
A kiss on the lips
Turned the toad to a prince
And the end was a lifetime away
I pour myself onto this page
I am writing a swan song for ages
I will leave it behind
And just maybe you will
Remember me(Chorus):
It's the end of an innocent era
The beauty we all know will be lost
We are building a bridge
Between Heaven and Hell
To return again
And why must a hero die young
Not to be gone and forgotten
So I pray for the broken
This is not the end of innocence
Now it's me and my knife
And my will is my temple
Numb from the choices I have to make
Slowly we all took a bite of the apple
And laughter's a lifetime away
Remember me
I pour myself onto this page
I am writing a swan song for ages
I will leave it behind
And just maybe you will
Remember me(Chorus)
Of innocence
Where do we go from here?(Chorus)
