

# Peace & Love, Inc.

## Information Society

Look at the world  
It's a complicated place  
And it's hard to keep the pace  
You've got to wear a smiling faceBut what we've got  
Is a blue light special on truth  
It's the hottest thing with the youth  
You've got nerves we need to sootheIf you've got to believe in something  
Believe in us we make it easy  
Peace and love incorporatedShop around  
See if you don't agree  
We think it fits you to a T  
And the best part is it's free, I believeWe got the market cornered this time  
We can make you feel fine  
It could impact your bottom lineIf you got to believe in something  
Believe in us 'cause well make it easy  
If you've got to belong to something  
Belong to us we'll make you PC  
Peace and love incorporatedPeace and love  
It's the newest 'cause by far  
And we've got all the biggest stars  
Get your politics up to parIf you got to believe in something  
Believe in us 'cause well make it easy  
If you've got to belong to something  
Belong to us and we'll make you PCIf you got to have faith in something  
Have faith in us it can be so easy  
Peace and love incorporated  
Welcome to peace and love incorporated
