

Welcome to this World of Fun

Zonata

You sail through storms
To reach into my world
A world that gives freedom to You all
Back at home
They treated You like shit
A world that brought sorrow to You all
Welcome to this world of fun
I will bring You round and round
Sorry that I never introduced myself
I will always try to be what I am
I am just a holy ghost
I will try to be Your host
Promise that I always will take care of You
I will always be by Your side
Now You reached
Into my holy land
A world that You thought was so good
Now it's time
To see what I have done
I am the Evil one
Welcome to this world of fun
I will bring You round and round
Sorry that I never introduced myself
I will always try to be what I am
I am just a holy ghost
I will try to be Your host
Promise that I always will take care of You
I will always be by Your side
OOOOOOH
Welcome to this world of fun
I will bring You round and round
Sorry that I never introduced myself
I will always try to be what I am
I am just a holy ghost
I will try to be Your host
Promise that I always will take care of You
I will always be by Your side
