

# Too Blind To See

## The Freeze

when we turned our back's away  
they took over  
now they hide behind  
their law and order  
the military gunned down  
a welfare line  
on state TV they claim  
everything's fine

we're too blind to see  
we're too blind to see  
we're too blind to see  
we're too blind to see

now public protests  
aint allowed  
the police just gassed  
another crowd  
under midnight curfew  
the streets must clear  
all opposing voices  
disappear

we're too blind to see  
we're too blind to see  
we're too blind to see  
we're too blind to see

our broken spirit's  
ride a voiceless wave  
we've settled inside  
a living grave  
we pay the church  
to protect our souls  
god is great  
when you've lost control

we're too blind to see  
we're too blind to see  
we're too blind to see

we're too blind to see
