

# To Trixie and Reptile, Thanks for Everything

## Chiodos

This is it, our one chance to make things right  
Post love affliction  
Our hearts nightmares won't let his happen again.  
Name the last time I wrote about something other than you  
I'll keep dreaming  
Not another word sweetheart  
Nothing is perfect, but this has to be someday  
So i'll keep dreaming  
We have to be someday  
When I'm the reflection in her sun bright eye  
Knees go weak and lips quiver  
The split second before they meet  
This is our annual  
If you believed what you felt you would be in love  
This is our...  
If you believed what you felt you would be in love  
If we believe....
