

# Took the Car

**John Mayall**

I took the car and drove off to the hills  
Saw the flashing lights and saw them die  
I left behind society that kills  
Me and Nancy waved them all goodbye I took the car, the sun was going down  
Saw the changing colors of the sky  
An old apache canyon our camp-ground  
Me and Nancy running hand in hand Took the car and drove off to the hills  
Took it back and made of it a fire  
To be a child again would be so good  
Me and Nancy warm in our desire Took the car and drove it everywhere  
Through the land where all the west began  
Desert wind was blowing in our hair  
Me and Nancy running hand in hand
