

# Still In Love (Sailors Remix)

Jahkoy

It's alright  
It's okay  
To try and hide your feelings today  
    Been around  
    Been away  
    But I won't let it stay the same(pre-)  
I remember when you lit me up with your touch  
    The fire within me  
    When I'm feeling empty  
    You fill me up right up baby  
    You fill me up right up x2  
    ()  
    I guess I'm  
    Still in love, still in love  
    Still in love, still in love with you  
    I guess I'm  
    Still in love, still in love  
    Still in love, still in love with you  
    I guess I'm  
    Still in love, still in love  
    Still in love, still in love with you  
    I guess I'm  
    Still in love, still in love  
    Still in love, still in love with you  
    (2)  
    I believe in many things  
    (I believe in, I believe in)  
    All of which account to faith  
    (I believe in you too)  
    You been here on different counts  
    (you been here on different counts)  
    So I'm steady counting away(pre-)  
I remember when you lit me up with your touch  
    The fire within me  
    When I'm feeling empty  
    You fill me up right up baby  
    You fill me up right up x2()  
    I guess I'm  
    Still in love, still in love

Still in love, still in love with you  
I guess I'm  
Still in love, still in love  
Still in love, still in love with you  
I guess I'm  
Still in love, still in love  
Still in love, still in love with you  
I guess I'm  
Still in love, still in love  
Still in love, still in love with you(Bridge)  
I, I  
Still in love, still in love with you x2  
I  
Still in love, still in love with you x4(SPZRKT harmonies)  
Just saying I really want you babe(pre-)  
I remember when you lit me up with your touch  
The fire within me  
When I'm feeling empty  
You fill me up right up baby  
You fill me up right up x2()  
I guess I'm  
Still in love, still in love  
Still in love, still in love with you  
I guess I'm  
Still in love, still in love  
Still in love, still in love with you  
I guess I'm  
Still in love, still in love  
Still in love, still in love with you  
I guess I'm  
Still in love, still in love  
Still in love, still in love with you()  
Can't let it get to me  
Oh no, lord knows  
The way I let it get to me  
Saying I  
Want you baby  
Just saying I really  
Want you baby  
Cause I remember when you  
Lit me up with your touch  
I remember when you  
Lit me up with your touch
