

Home This Christmas

[Justin Bieber](#)

Looking out the window
Waitin' for your head lights
To pull up in the driveway
It's really coming down tonight
You're scared that I won't make it through the storm
You should be here with me safe and warm
I'll be waiting under the mistletoe
While you're driving here through the winter snow
Baby think of me if it helps to get you home
Your the only gift that I really need
Is to have your arms wrapped around on me
Baby think of me if it helps to get you home
Home this Christmas
Pacing down the hallway
Trying to fight the urge to call
I could almost hear a pin drop
Except for the clock on the wall
And I'm scared that you won't make it through the storm
You should be here with me safe and warm
I'll be waiting under the mistletoe
While you're driving here through the winter snow
Baby think of me if it helps to get you home
Your the only gift that I really need
Is to have your arms wrapped around on me
Baby think of me if it helps to get you home
Home this Christmas
I'm praying that you make it home tonight
So we could lay down by the fireside
You and I till Christmas morning
There's nothing else that I want this year
More than just to have you here
I'll be waiting...I'll be waiting under the mistletoe
While you're driving here through the winter snow
Baby think of me if it helps to get you home
Your the only gift that I really need
Is to have your arms wrapped around on me
Baby think of me if it helps to get you home
Home this Christmas
Looking out the window
Waitin' for your head lights
To pull up in the driveway
It's really coming down tonight
