Lights Go Out

unterART

We've flirted, I've heard it all before
You wanna show me now
I've sat and waited, filled my head up around with doubt
I didn't think that you come around and see it my way
But you build up all the courage now
Tonight you're the water and I'm ride your waves today
So shawty wait until the lights go out
There's no more talking and no more teasing, nothing but pleasing
Wait until the lights go out
Let's loose the power for about an hour, say oh
Shawty wait until the lights
Shawty wait until the lights
I never told you that the way you be talking to me excites my whole world
But now it's class time girl if you don't mind let's show and tell
I got in good with your best friend so that you never forget me
And all that trash we be talking to her, it's entertaining
So shawty wait until the lights go out
There's no more talking and no more teasing, nothing but pleasing
Wait until the lights go out
Let's loose the power for about an hour, say ooh
Shawty wait until the lights
Shawty wait until the lights
If you ready hold it steady, girl let's get into
Turn on the mood, flip the blinds, put some shade to it
Put your body in position for submission
Straight shoveling while I'm digging, no need for no electrician
When the lights, ooh when the lights, when the lights, lights, oh
So shawty wait until the lights go out
There's no more talking and no more teasing, nothing but pleasing
Wait until the lights go out
Let's loose the power for about an hour, say ooh
Shawty wait until the lights
Shawty wait until the lights
