Give Me My Month

James Blake

Give me my month, I was a lucky one
Let me see where she has gone
Oh, let me see where she has gone
Let me see where she has goneHeld me back soft with my changing love
Never told her where the fear comes from
I never told her where the fear comes from
I never told her where the fear comes fromHalfway through night she won't have come
Or seen where I have been anytime we were undone
And the time we were undone
And the time we were undone
