

Butterflies

Lucina

Sitting here by my side
Will you be my man?
Will you hold my hand?
Will you kiss me tonight? I'm sitting here he smiles at me
I get a shiver down my spine
Thinking this will be the moment You put your arms around me
You pull me close
I can feel your body warming You put your arms around me
My heart beats strong
I can feel my body warming Bring on the butterflies I get when you're around
Can feel my body floating and my feet don't touch the ground
So bring on the butterflies I get when you're around
Can feel my body floating and my feet don't touch the ground Sitting here you look at me
Do you see the light
Light up my eyes
As you're holding me so tight I'm breathing in to catch my breath
Now I feel complete
When you look at me
Don't look away
Don't let me go You put your arms around me
You pull me close
I can feel your body warming You put your arms around me
My heart beats strong
I can feel my body warming Bring on the butterflies I get when you're around
Can feel my body floating and my feet don't touch the ground
So bring on the butterflies I get when you're around
Can feel my body floating and my feet don't touch the ground Ohhhhhh's
Ohhhhhh's Bring on the butterflies I get when you're around (get when you're around)
Can feel my body floating and my feet don't touch the ground (feet don't touch the ground)
So bring on the butterflies I get when you're around (get when you're around)
Can feel my body floating and my feet don't touch the ground Bring on the butterflies I get when you're around
Can feel my body floating and my feet don't touch the ground
