Woo woo woo woo
Woo woo woo wooWe're floating from right to bright news
We're floating from right to bright news
We're floating from right to bright news
Makin' sips of your pop skinAhh
All I need to know it
What more I have to do?All I need to know it
What more I have to do?What do you want?It's been so long
It's been so long
Without this feelin'
It's been so long
