

# Fake Redemption

## Sinister

Threshold of desire  
Frequency of death I see  
Prospect to the future  
A mirror of insanityBleeding  
Bleeding, bleeding ecstasy  
Resisting, resist the purityFake redemptionThreshold of the future  
A vision which is still unknown  
Random nightmares  
They've driven me to lunacyBleedingFake redemption  
Shameless pride  
Fake redemption  
Condemned to hideThreshold of desire  
Frequency of death I see  
Prospect to the future  
A mirror of insanityThreshold of the future  
A vision which is still unknown  
Random nightmares  
They've driven me to lunacyBleeding  
Bleeding, bleeding ecstasy  
Resisting, resist the purityFake redemption  
Fake redemption  
Fake redemption
