

When the Moon Tilted Backwards

They Ate Isengard

When the moon tilted backwards and the oceans were dry,
We could wish for some better times to form from this storm

 All those nasty and evil things are far from our home

 But when the moon starts tilting backwards

 There will be blood, death and gore

 I'm so troubled, my darling

 We've been at it so long

When it never gets easy there's no reason to tryWhen the moon tilted backwards and the stars were all lies

 We could live to tomorrow, but I'd rather not tryI tried, I tried, I tired

 I don't know if you'll live till' today or you'll go away

 Sleep away the day

 We are too old for this
