

# Fireside

## EARTHSEA

I can't explain but I wanna try

There's this image of you and I

And it goes dancing by in the morning and in the night time

There's all these secrets that I can't keep

Like in my heart there's that hotel suite

And you lived there so long it's kinda strange now you're goneI'm not sure if I should show you what I've found

Has it gone for good or is it coming back around?

Isn't it hard to make up your mind

When you're losing and your fuse is firesideThere's all those places we used to go

And I suspect you already know

But that place on Memory Lane you liked

Still looks the same but something about it's changedI'm not sure if I should show you what I've found

Has it gone for good or is it coming back around?

Isn't it hard to make up your mind

When you're losing and your fuse is firesideAnd I thought I was yours forever

Well maybe I was mistaken

But I just can't help my nature make it through the day

Without thinking of you latelyI'm not sure if I should show you what I've found

Has it gone for good or is it coming back around?

Isn't it hard to make up your mind

When you're losing and your fuse is fireside
