

Life Jackets

Luke Christopher

She was looking at me like can we make this for real?

Boy, I'm ready

I was looking at her like baby this is the deal

Don't you get it, don't you get it?

She said I don't get in no boat with no life jackets

I don't get in no boat with no life jackets

I don't get in no boat with no life jackets, with no life jackets

With no life jackets

Woah Love ain't gonna save you baby

Love ain't gonna save you

If anything it'll break down and I'm not gonna watch you drown

so Love ain't gonna save you baby

Love is only gonna make you drown She said nigga fuck that, this ain't no fuckin boat

Don't give me all those lines that you've been givin to your hoes

And your ex girl heard it too no doubt

next girl heard it too no doubt

all your lines is so played out

nigga all your lines is so played out

Got my number, we went out

All the feelings we let out

Constant conversations and my patience with your ego now

Told me that you need me

How the fuck suppose to leave me now?

Only thang that I can is girl it ain't that easy now

My life's like a train ain't no stop ain't no stopping in hell

All my verses on purpose, you see I write what I feel

Baby you're just a lover, you need me all to yourself

This sort of life with a nigga like me is bad for your health She was looking at me like can we make this for real?

Boy, I'm ready

And I was looking at her like baby this is the deal

Don't you get it, don't you get it?

She said I don't get it no boat with no life jackets

I don't get in no boat with no life jackets

I don't get in no boat with no life jackets, with no life jackets

With no life jackets

whoaa Love ain't gonna save you baby

Love ain't gonna save you

If anything it'll break down and I'm not gonna watch you drown

so Love ain't gonna save you baby

Love is only gonna make you drown
She said nigga fuck that, you just scared to commit
You talking to your boo as if you was talking to your bitch
You walking like you do
But talking like you someone else
Can I get a witness? Call up you ex, please
Let me see what she got to tell
You fucked that one up too
I bet she was a pro, work that ass off for you
Now she working the pole
You got any regrets nigga, or do you not care?
Telling me I can't be with you unless you're with them as well
She was looking at me like can we make this for
real?
Boy, I'm ready
I was looking at her like baby this is the deal
Don't you get it, don't you get it?
She said I don't get it no boat with no life jackets
I don't get in no boat with no life jackets
I don't get in no boat with no life jackets, with no life jackets
With no life
She said I don't get it no boat with no life jackets
I don't get in no boat with no life jackets
I don't get in no boat with no life jackets, with no life jackets
With no life jacketswhoaoh oh oh na
