Blowin' Me Up

All 4 One

I never been the kind to shy away from a pretty face
But something 'bout you got me so shook up
But now I'm trying to talk myself into the perfect way
Of maybe telling you this could be love
You got me so gone that I'm not strong
Every time you're right next to me
My heart's on overload, it's 'bout to explode
'Cause that's what you do to me
Oh girl, you're blowin' me up, you got me feelin' so stuck
I've never felt this way before
Baby, you blew up my spot, I think I like it a lot
And I want you more and more
Oh, I been sittin' here, can't bring myself to go nowhere
Can't leave until I get you off my mind, oh my
You lit the fuse in me, a lethal mix of TNT
And you're the one who can contain this fire
You got me so gone that I'm not strong
Every time you're right next to me, yeah
My heart's on overload, it's 'bout to explode
'Cause that's what you do to me
Oh girl, you're blowin' me up, you got me feelin' so stuck
I've never felt this way before
Baby, you blew up my spot, I think I like it a lot
And I want you more and more
You keep on blowin' me up
Oh girl, you keep on blowin' me up
Baby, keep on blowin' me up
You keep on blowin' me up
Oh girl, you keep on blowin' me up

Baby, keep on blowin' me up, yeah
Oh girl, you're blowin' me up, you got me feelin' so stuck
I've never felt this way before
Baby, you blew up my spot, I think I like it a lot
And I want you more and more
Oh girl, you're blowin' me up, you got me feelin' so stuck
I've never felt this way before
Baby, you blew up my spot, I think I like it a lot
And I want you more and more, yeah

You keep on blowin' me up
Oh girl, you keep on blowin' me up
Baby, keep on blowin' me up
You keep on blowin' me up
You keep on blowin' me up
Oh girl, you keep on blowin' me up
Baby, keep on blowin' me up
You're blowin' me up
You keep on blowin' me up
Oh girl, you keep on blowin' me up
Baby, keep on blowin' me up
You keep on blowin' me up
You keep on blowin' me up
Oh girl, you keep on blowin' me up
Baby, keep on blowin' me up
Baby, keep on blowin' me up
You keep on blowin' me up
You keep on
Baby, keep on blowin' me up
