

You Say You Love Me

Geographer

You say you love me (x4)
You say you love me but you don't
you say you need me but you know I just can't cope
with all the dreaming and the hope
you just want to use me up and leave me here and let me go
You say you love me
I want to know what you mean
I need to know how you feel
when you say you love me
I know you want me in your life
it's just the way you want me that doesn't feel so right
I know you're trying to ease my mind
Oh, but it's not so reassuring
if you don't know for certain
You're everything I wanted
You're everything and more
but you keep lookin' over my shoulder at that open door
this world is full of silence and I am just a thought
but you'll never find me if you keep on looking for the only one
You say you love me
I want to know what you mean
I need to know how you feel
when you say you love me
You say you love me(x4)
You say you love me
(you know I just can't deal)
I want to know what you mean
(you know the way I feel)
I need to know how you feel
(tell me are you for real)
When you say you love me
You say you love me
(you say)
I want to know what you mean
Just tell me how does it feel?
When you say you love me.
