

# My Life

## Sick of It All

My life Go to work and go to school  
Get an education, won't be a fool  
Be a doctor, PhD, all that shit that's not for me All my life people tell me what to say  
This is my life, live it my own way Was so blind I couldn't see  
Figures of authority, always standing behind me  
Ready to come down on me All my life people tell me what to say  
This is my life, live it my own way
