

This Little Girl

Cady Groves

You got your keys, but where you going?

The third degree just isn't working.

'Cause you walked out without asking me to go,
And if I followed you home, would you be alone?

I checked your phone, 'cause it was beeping

Are you alone? I know you're creepin'

'Cause you walked out without asking me to go,
But if I followed you home, I hope you're alone

Bridge:

I'm three steps from the edge

Whoa-oh

Don't push me over it

Don't you know, don't you know

Chorus:

Every girl is capable of murder if you hurt her

Watch out you, don't push me any further, any further

You're not the only one walkin' 'round with a loaded gun.

This little girl is capable of murder 'cause you hurt her

My hands are clean, not yet a killer

Ain't I your queen? And did you tell her?

'Cause you broke down all my shoulda known betters

And I followed you home, throwing sticks and stones

Bridge:

I'm two steps from the edge

Whoa-oh

Don't push me over it

Don't you know, don't you know

Chorus:

Every girl is capable of murder if you hurt her

Watch out you, don't push me any further, any further

You're not the only one walkin' 'round with a loaded gun

This little girl is capable of murder 'cause you hurt her

Don't you know you should never treat a girl like that?

Got a good alibi, and my bag's all packed

Don't you know you should never treat a girl like that?

'Cause the next one's gonna have the hammer pulled back

Chorus:

Every girl is capable of murder

So watch out you, don't push me any further
But you f*ckin' hurt her
Every girl is capable of murder if you hurt her
Watch out, you don't push me any further, any further
You're not the only one walkin' 'round with a loaded gun
This little girl is capable of murder, hey!
This little girl is capable of murder 'cause you hurt her!
