Headed for Nowhere

Triumph

I've had a long, long time to think it over now
You're not the one I waited for
Yo keep askin' me to let it go for now
But I just can't take it anymoreWhat did you expect?
You've thrown away your self-respect
But I'm not gonna let you take me down
I'll see you 'roundHeaded for nowhere, I don't want to go there
I know you've been leading me on
Headed for nowhere, I know that you don't care
Don't try to drag me alongYou never stopped to ask where do we go from here
You've had the answers all along
But now you see the deadline, it's drawing near
And you don't know where you went wrongYou've had it all your way
And I stood besides you night and day
But I'm not gonna follow you no more
No moreHeaded for nowhere, I don't want to go there
I know you've been leading me on
Headed for nowhere, I know that you don't care
Don't try to drag me alongI've had a long, long time to think it over now
You're not the one I waited for
You're askin' me to let it go for now
I can't take it anymoreI know you'll never change
Playin' all your games
But I'm not gonna follow you no more
No moreHeaded for nowhere, I don't want to go there
I know you've been leading me on
Headed for nowhere, I know that you don't care
Don't try to drag me along, yeah
