Hell of a Ride

Adam Brand

I don't really want this to end
It seems as though it all just began
It's not as if I don't know
You're pretending your leaving
You poured your heart out to me
Your words are hard to believe
I see you so see through
Don't make promises you can't
Keep your mouth shut
You talk to damn much
Once again you let me in
And give yourself away
Get gone if you want
You can go ahead and leave, it doesn't bother me
Or you could, just stay
And cut me down in a different way
If it ain't right, I can't make it right, yeah
So goodbye, it's been a hell of a ride
So tell me where will you go?
What will you do, or do you know?
Feel free to say goodbye
Feel free to leave at anytime
You want to, yeah, I just know you
Won't go anywhere, anytime soon
Get gone if you want
You can go ahead and leave, it doesn't bother me
Or you could just stay
And cut me down in a different way
If it ain't right, I can't make it right, yeah
So goodbye, it's been a hell of a ride
It's been a hell of a ride
Yeah, get gone if you want
You can go ahead and leave, it doesn't bother me
Or you could just stay
And cut me down in a different way
If it ain't right, I can't make it right, yeah
So goodbye, it's been a hell of a ride
It's been one hell of a ride
Goodbye, goodbye

It's been one hell of a ride, yeah
It's been one hell of a ride, yeah
