City on Down

O.A.R.

Well, in the end my friend, we will all be together again
Clutching onto my hand, in a valley we'll stand, just living again
And in a while we'll smile, march on another mile
On hallowed hills, attached to the land we'll be stillNo one's ever gonna say a thing
And we'll be together, together again
Taking off to the city on downJust a while ago my soul was confused, amused at what he did not know
But days went by, and amusement cried, I decide to let
My soul fly on by itself, pick happiness up and bring it back to the shelf
We'll be okay one day, in a valley we will stay, no more moving onI knew it was right here all along
Won't have to hold your crown, no more looking around
Just holding you tight in the city on downJust a while ago my soul was confused, amused at what it did not know
Days went by and amusement cried, I decide it's time
I got to move on now but I was so scared
I was frightened, somewhat enlightened so I changed shoes
Now I walk through a valley of color much better than the other
Way I did not know, but now we can be unitedMiracle, miracle sighted, and I'm pulling it in
I know by now we can all walk together at a regular speed
Do you dare to be excited? Are you somewhat delighted?
Are you aware somewhat delighted?At what you did not know
Let's take it to the city on down, city on down
To the city on down
Yeah, yeah let's take it to the city on downDown, down, down
Take it to the city on down
Down, down, down
City on down
Down, down, down
City on down, city on down on road
Let's take it to the city on down
