

# Forever a G (feat. Wiz Khalifa)

## Xzibit

Everyday lead to late nights  
Bitches on my neck like a vampire appetite  
Homie, pass me a light, I got that master kush  
Gave birth to you, bastards, told your momma the bush  
Now here you are, I see you're feeling strong  
My prediction came here tripping, you won't be living long  
Wait, I said that wrong, now let's negotiate  
I wait my banner a piece, won't you take the paper  
Pussy nigga, you fake, can't wait for the face to face  
Hit you with the cage, back in place  
Rip another page off the book of life  
Before tonight we gonna celebrate and smoke 'till we elevate  
My motive for motivating my niggas, come on[Chorus]  
Take a look at my eyes and tell me what do you see  
I'm going forever be me, never, I'm forever a GE  
All this liquor I drink and then I smoke all this weed  
Smoking this weed, smoking is good  
But I got what you need  
A lot of niggas are changed and they be doing what I made  
Won't you change, I want you stay the same  
But I'll always be the same, I'll always gonna keep it G  
I'm going forever be me, never, I'm forever a GIt's getting hard to survive the streets that eat you alive  
Dumping your body, your cadaver is covered with flies  
Too much rats are trapped inside of your rapping  
Niggas actually laughing at your lights, camera, action  
Do you, do you?  
Whatever the fuck you think you gotta do  
Because when I bring it to the whole court  
Putting up a play of stats  
While you're hanging with the roaches and rats  
We're way above that  
Now how you're loving that?  
Beat the breaks off the back of that bitch  
I can't breathe, can't make it your bitch  
Can't believe how deep in your shit  
Before tonight we gonna celebrate and smoke 'till we elevate  
My motive for motivating my niggas, come on[Chorus]The greatest trip that devil ever put together  
Was that self destruction is better than striving for perfection  
I see the down could crawl, quickly spreading like gun infection

And miss it after live, use your common sense as a weapon  
If you only knew half of this shit that I've been through  
Shoul've been a screen play when I get to  
More niggas away, IET, quit playing games in the middle of the street  
Fuck y'all niggas gonna say to me?  
We don't play the games, just play for keeps and now  
Back for the forth fly, back to the back who was back with a tour bus  
Get it round the world for a few months  
Down dead, way niggas gotta dumb trunk  
Before tonight we gonna celebrate and smoke 'till we elevate  
My motive for motivating my niggas, come on[Chorus]
