

# Where the Sun Always Shines

## Bad Love Junkie

A beautiful girl swings on her front porch  
Dreams of a place she's never been before  
Mississippi Delta blues  
Run deep as the river is wide  
She's so tired of living here  
She wants that California high  
Where the sun always shines God smiles on some and laughs at the rest  
It all depends on just who you ask  
Snake oil salesmen selling dreams  
That no one can afford to bye  
California here they come  
They read it on bill board sign  
Where the sun always shines Where the sun always shines  
It's just a place in your mind  
Take a good look around you  
Happiness is knocking on the door  
Where the sun always shines  
Is it so hard to find?  
When somebody loves you  
Just open up your heart and them in  
Where the sun always shines  
The sun don't always shine in California  
It's not where you lay your hat but leave your heart  
The sun don't always shine in California  
It's not where you lay your hat but leave your heart
