Godflesh

All my fears, looking where to hide
All my fears, buried deep inside Easy for you, your skin's so tough it's hard
Easy for you, you only see what you want
Angel by your side Easy for you, How could you be so weak
Easy for you, Everything looks just fine
Angel by your side All my fears, looking where to hide
All my fears, they'll get in you in time
Angel by your side, Angel by your side
